

# Pressbrake Setter - Nightshift

Reference: GE-0004 • Factory • £15–£17/hr • Deadline: 31 May 2026

## ABOUT THE ROLE

---

This role requires expertise in setting and operating Amada Press Brakes to produce precision sheet metal parts across various industrial sectors. The focus is on quality, efficiency, and teamwork within a fast-paced manufacturing setting.

## CORE RESPONSIBILITIES

---

- Set up and operate Amada Press Brakes (mandatory experience required).
- Confidently operate CNC press brakes and work efficiently to meet production targets.
- Experience with Salvagnini panel bending is desirable but not essential.
- Read and interpret engineering drawings to produce accurate components.
- Perform visual and dimensional inspections throughout production to ensure quality.

## ESSENTIAL SKILLS

---

- Minimum 2 years in a press brake operation role within a manufacturing environment.
- A strong sheet metal fabrication background is highly valued.
- Formal qualifications (e.g., NVQ) in engineering or fabrication are advantageous but not essential.

## DESIRABLE SKILLS

---

- A seasoned professional with experience in sheet metal fabrication and Amada Press Brakes.
- A detail-oriented team player who thrives in a nightshift environment.
- Someone proactive in suggesting improvements and comfortable mentoring apprentices.

---
