

Quality Engineer

Office • £39,000 – £46,000 per annum • Deadline: 30 Jun 2026

ABOUT THE ROLE

We are seeking a motivated and detail-focused Quality Engineer to join our team and support the continued development of quality standards across the business. The ideal candidate will have practical experience within a manufacturing or engineering environment, with a strong understanding of inspection, problem-solving, and process improvement. This is an important role, helping to maintain product quality, support customer requirements, investigate issues, and drive improvements across production and quality processes.

CORE RESPONSIBILITIES

- Support the inspection, investigation, and resolution of quality issues to ensure products meet customer and internal requirements.
- Work with production teams to identify root causes, implement corrective actions, and prevent repeat quality concerns.
- Maintain and improve quality documentation, inspection records, procedures, and related process controls
- Assist with customer, supplier, and internal quality requirements, including non-conformance reporting and improvement actions.
- Promote a quality-focused approach across the business through clear communication, practical support, and continuous improvement activity.

ESSENTIAL SKILLS

- Previous experience in a quality, inspection, manufacturing, or engineering role with a good understanding of quality standards and processes.
- Strong attention to detail, problem-solving ability, and confidence working with technical information, drawings, and specifications.
- Good communication and organizational skills, with the ability to work effectively with production teams, customers, and suppliers.

DESIRABLE SKILLS

- Experience with root cause analysis, corrective actions, 8D reporting, PPAP, FMEA, or other structured quality tools.
- Knowledge of ISO 9001, internal auditing, calibration systems, or manufacturing quality management processes.
- Experience within sheet metal fabrication, precision engineering, or a similar technical manufacturing environment

WORKING HOURS

Monday	8:00am – 5:00pm
Tuesday	8:00am – 5:00pm
Wednesday	8:00am – 5:00pm
Thursday	8:00am – 5:00pm
Friday	8:00am – 2:30pm

COMPANY BENEFITS

- Competitive salary.
- Additional holiday entitlement linked to length of service.
- Company uniform and IT plus mobile device equipment provided where required for the role.
- Access to a company discount scheme.
- Overtime opportunities available at competitive rates, where applicable.
- Employee referral scheme.
- Training and development support and Employee wellbeing package.
- Access to a salary sacrifice electric vehicle scheme, subject to eligibility.
- Long service awards
- Planned company events and engagement activities.
