

JOB SUMMARY:

Due to continued growth, we are looking for a Laser/Punch Press Operator to join our nightshift. Key Responsibilities & Requirements: Setting and operation of our 3kW Fibre Laser or one of three Amada CNC Turret Punches.

WHAT YOU'LL BE DOING:

- Setting punch tools as required.
- Maintain programs within the machine, eliminating programming errors.
- Forward plan and load plan for daily production requirements.
- Communicate with colleagues to ensure the smooth running of the manufacturing process.
- Operate relevant machinery and tools in a safe manner.
- Maintain high standards and quality of work.
- Inspect parts for defects as part of the in-process inspection procedure.
- Record all results, adjust program or notify appropriate person of deviation when needed. Upkeep of a clean and organised working area.

WHAT WE'RE LOOKING FOR:

- CNC Turret Punch Operator: 1 year (required)
- Competent Laser Operator: 1 year (required)

PAY AND SCHEDULE:

Pay Range

£680 - £780 per week plus overtime

Schedule

40 hours per week.

- 10hour shift
- Various shift Patterns
- Overtime

BENEFITS:

- ✓ Flexible working options to suit school hours or other commitments
- ✓ Real opportunities for progression in operations, planning, or systems
- ✓ Training provided to get up to speed quickly
- ✓ On-site parking
- ✓ Referral scheme
- ✓ Paid overtime (where available)
- ✓ Employee referral bonus
- ✓ Discount schemes
- ✓ Service rewards

APPLICATION TIPS:

The ideal candidate will be experienced in the use of Amada laser or CNC turret punches.
